"We desire to hasten the conclusion of a new treaty in which the principles proclaimed by the Russian democracy will be recognized as the basis of the international policy of the allies," said M. Theretelli, in his address. "Let us employ all possible means to the end that our program may agree with that of all the allies governments so as to avoid a rupture with our allies."
Minister Theretelli described to the congress the steps taken by the government for the summoning of an inter-allied conference for the revision of the various treaties, excluding the allies not to conclude a separate peace. AUSTRIAN POLES IN OPEN REVOLT

WITHOUT SUPPORT OF THIS CLASS EMPEROR CANNOT GAIN WAR CREDIT

(By Associated Press.)
AMSTERDAM, June 19.—Vienna newspapers publish a rumor that the Austrian premier, Count Clam Martinio, has offered the resignation of the cabinet to the emperor, owing to the decision of the Poles not to vote for the budget. The emperor reserved his decision.

(By Associated Press.)
COPENHAGEN, June 19.—Revolt of the Poles in the Austrian parliament is described by the Vienna correspondent of Vossische Zeitung as producing a crisis in which positions of both Premier Clam Martinio and Count Oserlin are threatened. Deflection of the Poles is sufficient to turn the scales against the government since the Slav block is already in opposition.

The Poles have indicated the seriousness of their intentions by a decision to vote against the budget, being the first parliamentary group of any belligerent country, aside from a handful of extreme Socialists, to refuse to vote the war credit. Polish aspirations which recently indicated they aim at an independent kingdom, are openly on an anti-German basis.
